WHY CHOOSE A VIRTUAL TOUR

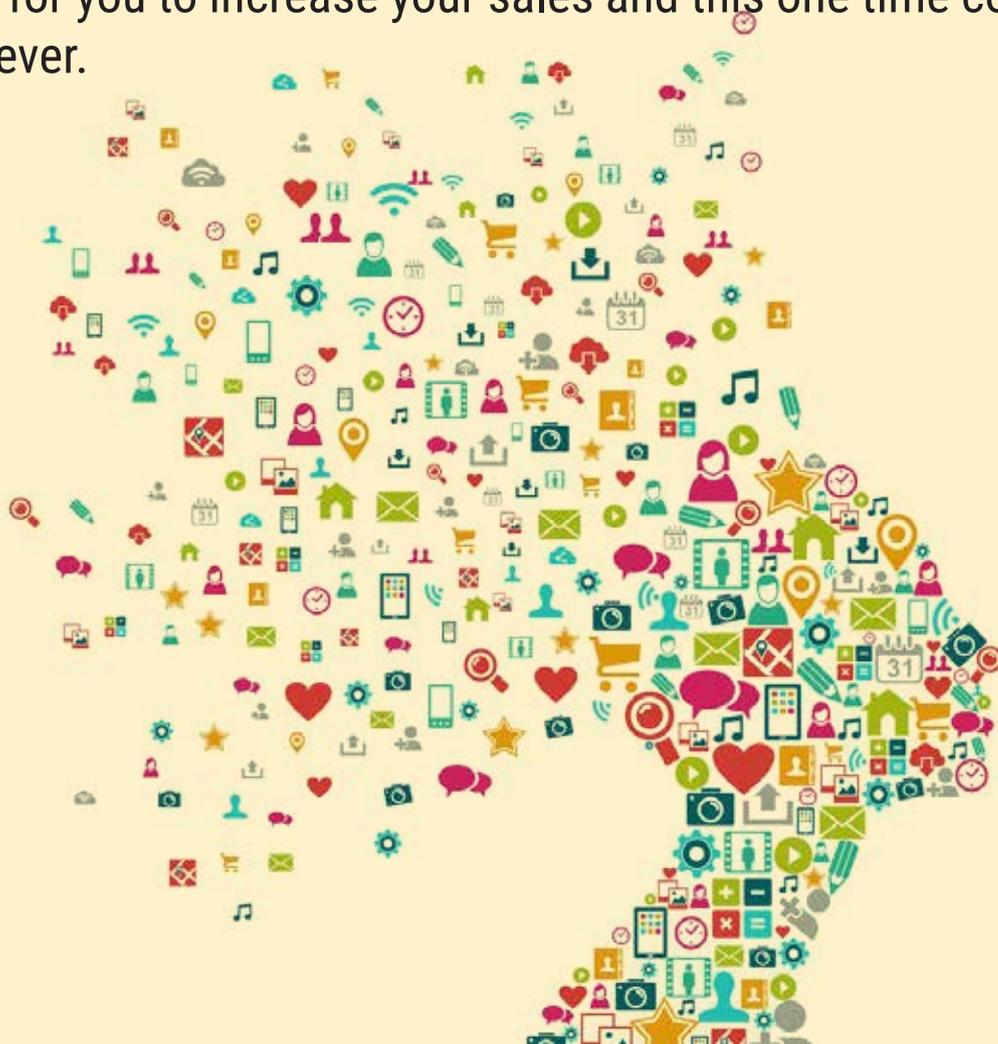

1. Save Time It Saves Your & Client's Time

A virtual tool will help save your clients a lot of time and money. Take a scenario whereby members of a company are planning to attend a business convention in your area code. Instead of having to travel from their present location this saves them valuable time and money. More so, it creates more business for you.

2. Cut Costs

A tour increases the value of your business because it operates on a 24-hour basis. This means that customers can preview your business at any time of day or night, and from different time zones. Individuals that preview your business from your website view inside will eventually become your loyal customers. Also, these customers can contact you directly from the tour we'll create for you to increase your sales and this one time cost benefit for ever.

3. Increased Convenience Targeting audience

The virtual tour we create for you will be a stronghold for attracting more sales. How? Customers usually know what they want when they are looking for a product or service. So, if your tour presents all they are looking for, the customer will immediately come to a decision.

For instance, if you run a beach hotel, the tour will include a captivating photo gallery of your amenities, services, food and beverage products, and contact information. So, if a customer is searching for a beach hotel that has all the amenities and services that we've included in the tour, he is guaranteed to contact you to make bookings.

4. Provide a Realistic Experience

Virtual tours allow people to take a visual walk through an actual available place. They can check out facility with a few mouse clicks. Compared to photos and videos, this technology offers a more accurate and realistic experience. A Virtual Tour can take the viewer to the actual location as if there are really present there. And that can leave a very lasting impression on the viewer.

5. Ease of use

We are living in a technological age, and every day, technology continues to evolve. Today, a majority of the world's population own smart phones, which give them easy and convenient access to the internet. Ease of use help people to use technology to make his mind.
